Intercity In Good Way To
Win the Pennant.

FOUR GAMES IN THE LEAD

And Six Games Ahead of Burlington
—Both Games Called Off Yesterday
on Account of Rain—At
Burlington Today.

Both Northern league ball games were called off yesterday on account of rain, and consequently double-headers will be played at the first opportunity. The Burlington team comes to Intercity only twice more this year, and probably next Monday will be chosen for the double-header. The players went to the grounds, along with several carloads of fans, yesterday afternoon, but the steady drizzle caused the management to call off the game. The wisdom of their decision was upheld when a little later in the afternoon the drizzle turned to a downpour.

The Intercity team to Burlington today to play a scheduled game with the "Clamptons." The game was scheduled to begin at two o'clock, and the choice for pitcher lay between Coombs and Morey, with the chance favoring the former, as he has not pitched for some time, owing to illness. Vickers will probably go against him.

The Northern league schedule has only fifteen more days to run, with a double-header or two mixed in, so that it will be seen that the race from now on will be interesting. The Intercity are holding their lead much better than last year, when the mistake was made of changing players at the eleventh hour. With the same team, strengthened by the addition of Reidy, the new outfielder, Barre-Montpelier should hold the lead to the end. The team work developed by constant playing together should be of more value at this time than the addition of some star men. Four games to the good of Rutland and six games ahead of Burlington, is the way the "three strong clubs stand. Burlington will have to win about half of its remaining games, while the others lose, in order to give them a chance for the pennant. It looks now as if it will be a fight between Rutland and Intercity.

The Barre stockholders are not paying up the second payment on their stock as promptly as the Montpelier stockholders. There is still a considerable balance to be collected. Yesterday the local directors went out on a still hunt for the money.

STATE GOLF TOURNAMENT.

Preparations for Fourth Annual Contest Open at Bennington Today.

Bennington, August 16.—The annual meeting of the Vermont State Golf Association will be held at the Mount Anthony club house this evening at 8 o'clock.

Extensive preparations have been made by the local club for the fourth annual tournament of the state association, which opened on the Mount Anthony links this morning at 9 o'clock. Under the direction of William MacDonald, the professional golfer who has had charge of several tournaments in Scotland, the grounds have been placed in excellent condition and everything made ready to receive the large number of well known golfers who will participate in the meet.

The Mount Anthony club links, over which the tournament will be played, is a nine-hole course. It has much natural merit, and is considered one of the best nine-hole courses in New England.

The Vermont State Golf Association is made up of the following clubs: Barre Golf Club of Barre; Dorset Field Club, Dorset; Ekwanok Country Club, Manchester; Montpelier Country Club, Montpelier; Mount Anthony Golf Club, Bennington; and the Waubesa Country Club, Burlington. The officers are: Paul Waterman, Ekwanok, president, and William H. Dunn, Rutland, secretary and treasurer.

The championship last year was played over the Rutland Country Club course at Rutland. There were thirty-eight starters. Frederick Herreschoff, Ekwanok, won the championship. Percy H. Jennings, Mount Anthony, was runner up; Clark Burnham, Ekwanok, won the consolation cup; E. I. Hall, Rutland, won the second sixteen trophy, and W. H. Dunn, Rutland, won the all day open handicap.

CRUELTY IN TRANSIT.

Wilson in Chicago to Get the Facts About Cattle.

Chicago, Ill., August 16.—Secretary of Agriculture Wilson, accompanied by Dr. E. S. Salmon, chief of the bureau of animal industry, arrived in Chicago Monday night, and yesterday they began an investigation into livestock transportation.

"We have come to Chicago to learn the actual condition of the livestock traffic," said Secretary Wilson. "We want to know what the situation is, so we can handle it intelligently at Washington. The law provides that cattle shipped in cars which are not provided with conveniences for feeding and rest shall be taken out and fed at least once in eight hours. We want to determine what conveniences are necessary to feed and rest cattle in transit."

Three-Base Hit Wins a Bride.

Cracking a three-bagger with two out and the bases full, on July 4, has won for F. J. Wells, shortstop of the Altoona team, a bride. When at a critical stage of the game Wells stepped forward and almost knocked the cover off the ball, pretty Gertrude Benfield of Oklahoma City, who, with friends, was sitting in the grand stand, applauded more vigorously than her companions. "Isn't he a dear?" she murmured. "I want to meet him." The meeting was arranged. It proved a case of love at first sight. H. C. Place, the Altoona pitcher, was the witness who accompanied the pair to get the license.

A three-base hit may cause a wedding in Altoona, but there are towns in which it would cause an epidemic of heart disease if made by the home team.—Washington Post.

Neuralgia And Other Pain.

All pain in any disease is nerve pain, the result of a turbulent condition of the nerves. The stabbing, lacerating, darting, burning, agonizing pain that comes from the prominent nerve branches, or sensory nerves, is neuralgia, and is the "big brother" of all the other pains.

Dr. Miles' Anti-Pain Pills rarely ever fail to relieve these pains by soothing these larger nerves, and restoring their tranquility.

Dr. Miles' Anti-Pain Pills leave no bad after-effects, and are a reliable remedy for every kind of pain, such as headache, backache, stomachache, sciatica, rheumatism and neuralgia. They also relieve Dizziness, Sleeplessness, Nervousness, Car-Sickness, and Distress after eating.

"For many years I have been a constant sufferer from neuralgia and headache, and have never been able to obtain any relief from various headache powders and capsules until I tried Dr. Miles' Anti-Pain Pills. They always cure my headache in five minutes time." FRED R. SWINGLEY, Cashier Int. Nat. Bank, Atkinson, Neb.

Boy From Vermont a Ward
Of Boston.

ARRIVED WEARING TAG

George Samuel Abbott, Eleven Years Old, Was Sent from Vermont to Be Delivered to Mr. McCarthy, Boston, Mass.

Boston, Aug. 16.—George Samuel Abbott, 11 years of age, who arrived on the Vermont train yesterday afternoon with a large trunk tag hanging from his jacket, on which was written "Deliver to Mr. McCarthy, Boston, Mass.," has reached his destination, "Mr. McCarthy" being Agent McCarthy of the children's institutions department of Boston.

The boy, a bright little fellow, was found by Patrolman Gavin of station 1 at about 7 o'clock last night in the waiting room of the North station, where he had been patiently waiting since 5 o'clock. He was taken to the Chardon Street Home. The boy said that the tag had been put on him by a woman with whom he had been living in Tunbridge. In an inner pocket of the boy's jacket was found a slip of paper, on which was written "30 Tremont street." This is the office of the children's institutions department.

Young Abbott said that he was born in Charlestown, but had moved away when very young. His mother became ill a few years ago, and the trustees of the Boston children's department put him in charge of a family in northern Vermont. He has a brother and a sister. He did not know why he was sent to this city. He is also reported to have said that at Tunbridge he was ill-treated.

After spending the night at the Chardon Street Home the boy was taken in charge by the officials of the children's institutions. On inquiry at the office surprise was shown that the incident should have caused such widespread comment. One of the officials said:

"The boy has been under our charge for some time. He has been with the family at Tunbridge but a short time. They were not altogether satisfied with him and sent him back. A member of the family made part of the trip with him. We investigate with great care the families in which our children are placed, and are very particular as to their character and circumstances. The family where the Abbott boy was placed is known personally to our agents and would not ill-treat the child. It is customary to notify us when a child is to be returned to us, and the failure of the family with whom young Abbott was staying to do so caused the confusion." This morning the boy denied that he had ever said he was ill-treated. He will probably be placed in some good family before long.

NEW DEAL IN SENATE.

Sweeping Changes Will Have to Be Made in Committees.

Washington, D. C., August 16.—A reorganization of the committees of the Senate may be accomplished at the extra session in November, but it is generally believed that the matter will be postponed until the regular session in December.

Death and retirement have caused a number of vacancies at the heads of important committees. The deaths of Senators Hoar of Massachusetts and Platt of Connecticut, both within the year, have made it possible for a far Western man to go to the chairmanship of the judiciary committee, which has belonged to the East for more than a decade. Senator Clark of Wyoming is in line for this chairmanship.

The death of Senator Hawley creates a vacancy at the head of the committee on military affairs. Senator Warren of Wyoming is likely to succeed to the military affairs or agriculture committee chairmanship.

Senator Proctor and Senator Scott are striving for the chairmanship of public buildings and grounds, made vacant by Mr. Fairbanks' election to the vice presidency. Senator Warren is in line for this vacancy, but prefers either the agriculture or military affairs. Senator Fulton of Oregon is likely to succeed Warren at the head of claims.

Other vacancies occurring in chairmanships are: Census, held by Senator Quayles, now United States circuit judge; education and labor, held by McComas, now on the District of Columbia bench; forest reservations, held by Burton of Kansas; geological survey, held by Foster of Washington; Indian affairs, held by Stewart; inter-oceanic canals, held by Mitchell of Oregon, to which Senator Platt of New York will probably succeed; irrigation and reclamation of arid lands, held by Bard of California, and the select committees of which Bate of Tennessee (deceased), Dietrich and Kearns were chairmen.

The reorganization will necessarily be sweeping.

TEMPERAIRE AGAIN.

Challenger Wins Third Race in Canada's Cup Series.

Rochester, N. Y., August 16.—The third race in the series for the Canada's cup was sailed on Lake Ontario off Charlotte and Summerville yesterday over a triangular course three miles to the leg and twice around, or eighteen miles. The conditions were somewhat similar to those of Monday. There was a choppy sea and the wind was blowing at the rate of twelve miles an hour from the southeast. In the start the Temeraire, the challenger, crossed the line ten seconds ahead of the Iroquois. The Temeraire finished at 1:33, the Iroquois at 1:45:15.

65,000 ILLEGAL NAMES.

Have Been Found on Assessors' Lists in Philadelphia.

Philadelphia, August 16.—The completion of the policemen's canvass of thirty-one wards of the city indicates a total of 60,000 to 65,000 illegal names on the assessors' lists.

The names marked improper in the second canvass of the twentieth ward, the report of which was turned in Monday, number 3,970, the highest of any ward in the city. The first canvass turned in by the police showed 1,750. The bogus assessments for the nineteenth ward, also completed Monday, are 1,887, as against 39 reported from the first canvass.

From every division, house after house, in the tenth ward, of which Senator James P. McNichol is the organization leader, is reported by the police to contain illegal registrations, which are accounted for under the general term of removals.

INQUIRING INTO LEAK.

Grand Jury at Washington Is Again Probing Cotton.

Washington, D. C., August 16.—The grand jury of the supreme court of the District of Columbia yesterday resumed its investigation into the leakage of the cotton crop reports of the department of agriculture, C. C. Clark, chief clerk of the bureau of statistics of the department, being the first witness.

A mass of documents was carried into the jury room, the basis of an examination of the methods of the department in the preparation of reports.

District Attorney Beach hopes to secure indictments against more than one person, notwithstanding the absence of Mr. Hyde, the former statistician of the department, and the refusal of Messrs. Packham and Haas to testify.
